---	--

SKILL	A	B	C	D	COMMENTS (IF ANY)
GENERAL NURSING					
Adult Physical Assessment					
Neonatal Physical Assessment					
Nursing Process					
Care Plans					
Patient/Family Teaching					
Discharge Planning					
ANTENATAL TESTING					
Electronic fetal monitoring skills/interpretation					
Validation of Electronic fetal monitoring skills					
Course work completed (provide documentation):					
Level I (Basic fetal monitoring)					
Level II (Advanced fetal monitoring)					
Non-stress test # times/week ____					
Amniocentesis (assist with)					
Biophysical profile					
HIGH-RISK EXPERIENCE					
Care of patient with Rh Isoimmunization					
Fetal blood sampling (assist with)					
Percutaneous umbilical blood sampling (PUBS) (assist with)					
Hemodynamic monitoring:					
non-invasive					
invasive					
CARDIAC DISORDERS - CARE OF PATIENTS WITH					
Congestive heart failure (CHF)					
Cardiomyopathy					
Cyanotic cardiac disease					
Structural/Congenital defects					
Rheumatic Heart disease					
Previous cardiac surgery					
Arrhythmias					
DVT (Deep vein thrombosis)					
PE (Pulmonary embolism)					
RENAL/HEPATIC - CARE OF PATIENTS WITH					
Chronic renal failure					
Acute renal failure					
Previous renal transplant					
Hepatitis					
Liver failure					
RESPIRATORY - CARE OF PATIENTS WITH					
Adult Respiratory Distress Syndrome (ARDS)					
Pneumonia					

SKILL	A	B	C	D	COMMENTS (IF ANY)
Asthma					
DIABETES MELLITUS					
Blood sugar control					
Glucose monitoring/insulin administration for home control					
Diabetic ketoacidosis					
OTHER - CARE OF PATIENTS WITH					
Pregnancy induced hypertension (PIH)					
Severe PIH/ECLAMPSIA					
HELLP Syndrome (Hemolysis elevated liver enzymes & low platelets)					
Disseminated Intravascular Coagulation (DIC)					
Sickle cell disease					
Sickle cell crisis					
Cancer					
Chemotherapy administration					
Seizure/neurologic disorders					
Infectious diseases					
Septic shock					
Puerperal infection					
Antenatal hemorrhage					
Placenta Previa					
Placenta Abrutio					
Placenta percreta					
Postnatal hemorrhage					
Hypovolemic shock					
Immune disorders:					
Systemic Lupus Erythematosus (SLE)					
Collagen disorders					
Hematologic disorders					
POST OPERATIVE CARE					
Cesarean section					
Total Abdominal Hysterectomy (TAH)					
D&C					
Laparoscope					
Laporotomy					
Myomectomy					
GENERAL SKILLS					
Total Parenteral Nutritio (TPN)/Hyperalimentation					
Lipids					
Epidural Analgesia					
Patient Controlled Analgesia (PCA)					
IV Push Medications					
Unit Dose System					
Heparin Drips					
Morphine Infusion					
Insulin Drips					
Blood/Blood Products					
IV Starts					
CVP Lines					
Blood Draws From CVP Lines					
IV fluids/Piggybacks					
Lab value interpretation					
Oxygen Therapy Via Nasal Cannula					
Oxygen Therapy via Mask					
Chest Physio Therapy					

SKILL	A	B	C	D	COMMENTS (IF ANY)
Incentive spirometry					
Sterile/Aseptic Technique					
Foley Catheter Insertion and Care					
Suture/Staple Removal					
Open Wound Irrigations/Packing					
Vaginal packs					
Hemovacs/Drains					
Universal Precautions and Isolation (All Types)					
EKG Machine, use of					
Dynamap Blood Pressure Monitoring					
Glucometer					
Specimen Collection:					
Blood					
Sputum					
Stool					
Urine					
Wound Culture					
NEONATAL SKILLS					
Admission Assessment					
Ballard Exam					
Dextrostix					
Phototherapy					
Resuscitation/Stabilization					
IV Therapy/Heparin Lock					
Orogastric Tube Insertion and Feeding (OG)					
Nasogastric Tube Insertion and Feeding (NG)					
Lactation Teaching/Support					
Care of Small For Gestational Age (SGA) babies					
Care of Large For Gestational Age (LGA) babies					
Radiant Open Warmers					
Isolette					
Assist With Circumcision					
Circumcision Care					
Medication Administration – Neonate:					
Oral					
Intramuscular (IM)					
Nasogastric (NG)					
Subcutaneous (SQ)					
Intravenous (IV)					
Intradermal (ID)					
Care Of Infant With:					
Metabolic Disorder					
Rh Isoimmunized					
ABO Incompatibility					
Insulin Dependent Mother					
Polyceptic Kidneys					
Hydronephrosis					
Mothers Who Are +RPR And +HbsAg					
Genetic Disorders					
Labs Drawn By:					
Heelstick					
Venous					
Lab Value Interpretation					
MANAGEMENT EXPERIENCE					
Precepting New Employees					

SKILL	A	B	C	D	COMMENTS (IF ANY)
Charge Nurse Responsibilities					
Experienced In:					
Team Nursing					
Total Patient Care					
Primary Nursing					
Mother/Baby Combined Care					
CERTIFICATION					
BCLS					Date Updated:
NALS					Date Updated:
ACLS					Date Updated:
Additional Specialty Certification					Date Certified:
LABOR AND DELIVERY SKILLS					
OR					
Scrub					
Circulate					
Recovery Room					
Labor patients:					
First Stage					
Second Stage					
Third Stage					
Tocolytics					
Magnesium Sulfate (MgSO4)					
Ritodrine					
Indomethasin					
Prostin tablets/gel					
Oxytocin					

Comments/Questions:
1. What do you like most about your present position?
2. What do you dislike the most about your present position?
3. What contribution do you think you can make to KFSH?
